World Leader in Supplying
Military And Police Training

GLOBAL FOOTPRINT

Founded in 1990, TAR IDEAL CONCEPTS established itself as a leading solutions provider, representing international HLS & Defense companies to the Israeli MOD, Law Enforcement Units and Prison Facilities.

In 1995, TAR expanded activities to the international market, adopting the civilian ONE STOP SHOP concept. As an integrator of products and technologies, Tar's experts take care of planning and execution, including post-delivery, ongoing training and management support to ensure projects' success.

NATIONAL-SCALE SOLUTIONS

In 2013, the Avnon Group was established, leveraging on the different technologies within the group, TAR provides more technology-based projects and solutions to a broader client base. Understanding that governments are looking for holistic solutions, TAR has made a transition from an integrator of 3rd party products to delivering national-scale integrated technology solutions to meet their threats and operational requirements.

As a client orientated company, we address the specific threats, time frames and budgetary constraints of our clients'. Our flexibility enables us to build customised solutions for each project.

WORKING TO SECURE YOUR FUTURE

TAR's ONE STOP SHOP concept encompasses all the many elements of a project; from operational knowledge and technologies, to advanced equipment and training. This enables Special Forces, First Responders and decision makers to establish operational protocols, training techniques, and combat capabilities, using the latest technologies to address threats ranging from terrorism, international crime, natural and man-made disaster and intrusions to our critical information infrastructures.

TRAINING THE BEST

TAR trains your crew, whether ground or air, providing specialized programs for fighter planes, helicopters or cargo crews.

INCLUDING BUT NOT LIMITED TO:

- Parachute Training – water/ H.A.L.O
- S.E.R.E (Survival, Escape, Resistance and Evasion)
- Ground Teams – Mechanics
- Navigation
- Ammunition handling
- Long-range surveillance of aircraft and radar emitters
- Surveillance on moving and stationary targets

MITIGATE YOUR NAVAL THREATS

TAR supplies advanced training and equipment to anticipate and mitigate naval threats according to international standards and actual maritime defence requirements. From building the battalion to equipping the maritime corps with the know-how to defend territorial seas, deter threats, conduct maritime surveillance, and protecting marine assets, TAR delivers a comprehensive solution customised to meet your specific threats and requirements.

- Maritime Ops. (Ship take over, screening, swimming, battle etc.)
- Land Ops. (Raids, navigation, UAV's, CQB etc.)
- Breaching Capabilities
- Rappelling
- Establishment of Sniper Capabilities
- Boat drivers
- Observation Operators
- UAV Platoon
- Surveillance Systems
- Protocols & Methodologies
- EOD Maritime Operations

KNOW YOUR OPPONENT

Ensuring your forces have the most advanced equipment and training is vital to the success of a mission. Our experienced trainers provide training courses from the division, brigade level and platoon level down to the individual soldiers of each unit. Include advanced courses and “Training the Trainers”. We offer simulation training to ensure that your soldiers are well practiced to operate in a wide number of environments and mission scenarios.

- Individual Operator Skills & Fire Arm Skills Development (handgun & rifle) – (Mobile Shooting, Drawing Techniques, Misfire Drills, Complex Shooting Drills under stress etc.)
- Close Protection
- Counter Sabotage
- Urban Warfare
- Surprise Combat Drills
- Equipment and Technology Handling
- Land Navigation
- Low Visibility/Night Training
- C.B.R.N.e - Prevention, Response & Recovery, Tactical training for C.B.R.N during missions.
- Paramedic Training

YOUR WARRIORS

Many missions are carried out in urban environments. We ensure that your soldiers are trained to pinpoint and neutralise a target in a civilian terrain. More importantly, we provide training to de-escalate conflicts and non-violent crisis intervention.

- Target Engagement (Day / Night)
- Weapons Familiarization
- Distribution of Fire
- Weapons Transition
- Multiple Target Prioritization and Engagement
- Turning & Lateral Movement
- Shooting from Behind Cover
- Tactical Magazine Change (Day)
- Structure Clearing Procedures (Day / Night)
- CQB Fundamentals
- First Aid Medical Training
- Tape Drills
- Search/Control
- Breach Procedures
- Use Of Flash Bangs
- Red Zones
- Halls/Stairs
- Exit upon Command

READY FOR ACTION

TAR provides special weapons and tactics for S.W.A.T. and Special Units.

We have 30 years' experience working closely with S.W.A.T. & Counter Terror Units building and strengthening their capabilities to ensure that your team is prepared for all events.

- Combat Marksmanship
- Conduct after Capture
- Special Operations Task Operations Planning
- SOTG Operations Planning
- Tactical Combat Casualty Care
- Close Quarter Battle
- Sniper
- Breaching
- Krav Maga

GET PREPARED FOR THE NEXT EVENT

A country's internal safety requires a strong Police Force. We have proven experience training Police Forces worldwide. Whether establishing a new Police Unit, or division, on a local or nation-scale or modernising existing forces. we will train your officers to an international standard.

TAR will ensure that your officers are using the latest methodologies, technologies and equipment for each relevant department.

- Riot Control/Crowd control , De-escalation Techniques
- Traffic control
- Investigations and intelligence
- Forensics courses
- Interdiction & Response (Suspects Neutralization, Response Techniques)
- Surveillance Techniques (on foot/vehicle, Dynamics, communications, safety,
- Tactical capabilities (Searches, Suspect Apprehensions, Search and Seizure, search teams, Strategic Planning and Formations)
- Narcotic Operations (undercover activity, distraction tactics, pre assault indicators, safety procedures)
- Defense against edged weapons

BUILDING YOUR K9 CAPABILITIES

TAR has been working with K9 units for over 30 years, helping to purchase canines, and establishing K9 units from equipment, training dogs and trainers. We can provide you with a complete, customised K9 solution.

- Professional Consulting,
- Establishment of a K9 unit operational dogs with/ without handler.
- Development & deployment of K9 teams for security purposes.
- General equipment for both handler and dog.

The dogs undergo a strict qualification process to determine suitability. The dogs that qualify, begin an intensive training program, tailored to the specified tasks required. Each dog is matched with a handler before training begins. Trained by highly experienced trainers, the dogs are trained with specific abilities & skills to perform effectively.

Only the most qualified dogs will become an official Tactical K9. Each training program is tailored to meet the K9 units specific needs.

- Attack
- Tracking
- Explosives Detection
- Drug Detection
- Search & Rescue

FIND YOUR TARGET

Explosive Ordnance Disposal / Improvised Explosive Devices (IED's) are a major threat in today's counter terror warfare. TAR trains bomb disposal teams and builds capabilities to discover, neutralize and dispose of all types of bomb threats.

TAR has implemented large-scale EOD/IED projects for EOD units worldwide. We understand the threats and the knowledge required by EOD units in order to carry out mission quickly, with minimum risk to your team and civilians. Our experts provide a comprehensive training program that allows EOD units to implement and deliver best practice techniques when handling explosive hazards.

- Explosives foundation
- Explosives Storage Management
- EOD Operator
- High Risk Search
- Terrorism Awareness
- Emergency Planning
- Firearms and Explosives Recognition
- IED Awareness
- Manual Techniques
- Improvised Explosive Device Disposal
- Explosives Manufacturing
- Post Blast Scene Management

YOU HAVE ONE SHOT

TAR provides sniping units with the fieldcraft, marksmanship skillset and knowledge required to support operational missions in an operational environment.

- Introduction of Sniper Rifles & Semi-Automatic Weapons.
- Known unknown distance marksmanship
- Observation Capabilities
- Stalking Methodologies
- Infiltration/Exfiltration
- Precision Shooting (short & long distances.)
- Multiple & Mobile Targets
- Sniper cover for Executive Protection Teams.
- Sniper Applications for Hostage Rescue Situations
- Night Sniping
- Sniper Spotting Skills

IMPROVE YOUR REACTION

When weapons fail or you have no time to use it, soldiers need to be trained to use their real power. TAR trains soldiers to react rapidly in an array of real life battle scenarios.

We provide “best practice” skills, tactics and knowledge that are necessary in a wide variety of combat scenarios in order to control and neutralize armed or unarmed enemies.

- Krav Maga
- Knife Fighting Skills
- Improvised Weapons Training
- Close Quarter Neutralization Techniques
- Bare Arm Defense
- Weapon Defense

PROTECTING YOUR BORDERS

With rapid globalization and open borders, the demand for advanced inspection systems and trained personnel to handle security threat scenarios at entry points is on the rise. TAR provides HLS agencies and security teams with the skills to effectively detect, deter and prevent any threat.

AIRPORT SECURITY

- Development of Aviation Security programs and Standard Operating Procedures
- Response to Security Incidents
- Aerial Surveillance Threat and Vulnerabilities Assessment and Risk Management
- Perimeter Protection, Surveillance equipment and Patrolling
- Crisis Communication and Coordination
- Intelligence Gathering
- Screening Techniques
- Recognition & Detection of weapons, dangerous substances, devices.

BORDERS / CHECKPOINTS/ENTRIES

- Passenger Flow Management
- Perimeter Protection, Surveillance Equipment and Patrolling
- Crisis Communication and Coordination
- Intelligence gathering
- Screening Techniques
- Recognition and Detection Of Weapons, Dangerous Substances, and Devices
- Characteristics of Suspicious Behavioral Patterns

VESSEL / PORT SECURITY

- Emergency Procedures and Contingency Plans
- Recognition and Detection of weapons, dangerous substances, and devices
- Characteristics of Suspicious Behavioral Patterns
- Preventing and Suppressing Acts Of Piracy and Armed Robbery

YOUR SAFETY IS OUR MISSION

For centuries bodyguards have been the last wall of protection. TAR provides world class training to help you defend and protect your President, Prime ministers, ministers and V.I.P'S both at the official offices/residence and convoy units.

- Dignitary Protection/Executive Protection
- Use of Force/Defensive Tactics
- Close Protection Methodologies
- Individual Operator Skills & Fire Arm Skills
- Advanced Driving
- Surveillance, Counter Surveillance & Intelligence
- Emergency Management
- First Aid/Combat First Aid
- CBRN Defence
- Explosive Threats Handling – Bomb Squad ,
- Convoy Security
- Facility Protection
- Security Screening
- Event Security

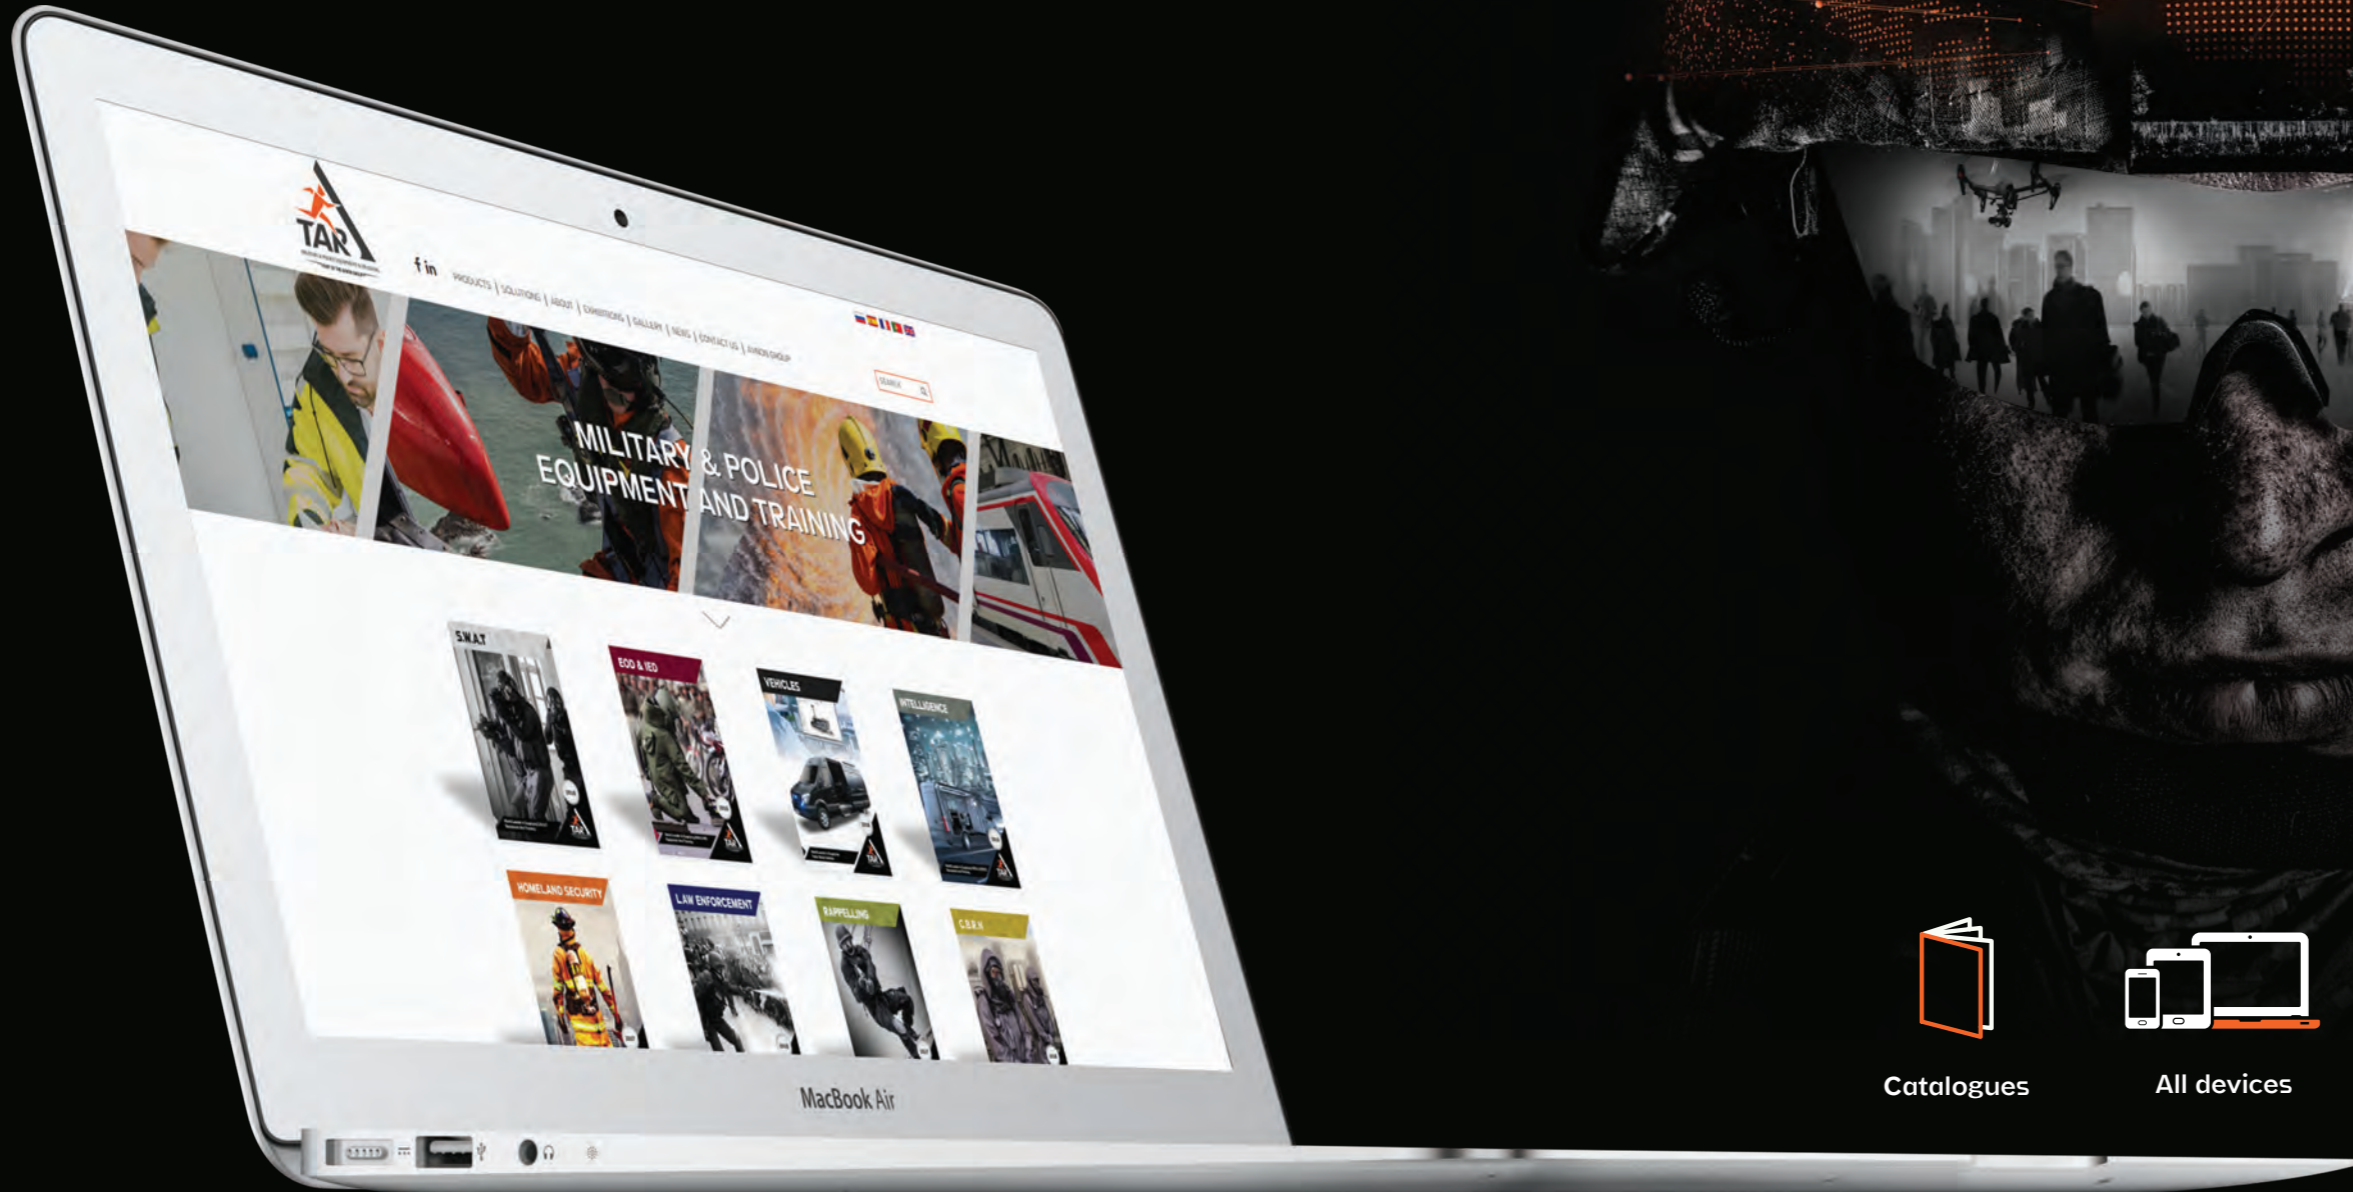

CRIME SCENE ANALYSIS

TAR'S Forensic Training program provides law enforcement, criminal investigators, crime scene technicians, and governmental agencies with the most current, up to date advanced forensic courses, tools and knowledge for crime scene processing and investigation.

- Anthropology-Hematology-Morphology
- Evidence Collection
- Digital Forensics
- Micro-Analyzes (MCA)
- Ballistics
- Forensic Medicine And Odontology
- Biology
- Environment - Fire And Explosives
- Evidence Recognition/Preservation,
- GSR Analysis
- HME Analysis
- Paint Analysis
